

The SUPA Advantage

[fusion_text]

The SUPA Advantage

Quality Control—SUPA continuously evaluates the quality of services it provides students, parents, high school administrators, teachers and university faculty. Our full-time staff ensures consistency and minimizes high school administration time and costs.

Modeling Success—Due to its leadership and innovation, Project Advance has served as a dual enrollment model for similar programs at Indiana University, the University of Pittsburgh, the University of Wisconsin-Oshkosh, and the University of Minnesota.

Accreditation—SUPA is the only college readiness program affiliated with a private research university in the Northeast to be accredited by the National Alliance of Concurrent Enrollment Partnerships ([NACEP](#)).

Managing Growth—Every year, more courses are developed and field-tested for potential inclusion in a high school

curriculum. Our program is expanding rapidly as educators realize the importance of successfully transitioning from high school and college.
