Course Overview

ITA 201, Intermediate Italian, is a course designed to further develop, strengthen and refine the skills of students who have achieved the Novice High to Intermediate Low level of proficiency in the language. The course, which is conducted completely in Italian, offers students a full review of Italian grammar together with the development of speaking and writing skills, and a consistent exposure to Italian language and culture.

To achieve these goals, students engage in interactive oral

activities, write weekly compositions, read and discuss a variety of authentic texts that include current events, cultural life, and literary selections. In addition, students will watch films, documentaries, and footage from Italian television, which they will write about and discuss. Grading in the course is based on the quality of work in these activities throughout the course as well as on oral and written examinations.
