

Direct Billing Options

SUPA offers a direct billing option for all schools that cover the cost of their students' Syracuse University course tuition.

Direct billed partner schools fill out an enrollment form and a W9 and submit to our office.

If your school chooses to be a direct billed school, the SUPA Business Office will provide the invoice after our drop deadline for the semester. The invoice is sent to the school via mail and email a few days after the drop deadline date. This is to ensure accuracy and account for any students who have dropped a course from their Syracuse University academic record.

Direct Bill Enrollment forms must be completed annually.

Students at direct billed schools are still eligible to apply for a reduced tuition rate. Please see our [Tuition Assistance page](#) for more details.

Direct billed schools with large populations that may qualify for tuition assistance should contact the SUPA Business Office for additional support.
