Online Transcript Request

The Office of the Registrar has implemented a new electronic transcript request and fulfillment process that offers advanced security features and improved efficiency and speed. [Requests can be made online 24/7](#), and you will have access to real-time, end-to-end tracking that shows when the transcript request was fulfilled and when it is received. As a result of the new process, average transcript delivery will be within hours of the request. Transcripts will be provided at a charge of \$12, which helps cover the cost of the added security and other enhanced features of the new system.

Requests for electronic copies do not carry an additional charge. However, there is an additional charge of \$2.50 for U.S. domestic delivery and \$5 for international delivery for paper transcripts. **Please make sure that your final grades have been posted before ordering your transcript to avoid incomplete transcripts and the expense of ordering additional transcripts.** More information is available on our [Transcript Request Page](#).
