

Library Access

Syracuse University Library System

Project Advance Instructors and students have full access to the Syracuse University Library system.

Students participating in SUPA have access to the SU Libraries' licensed database and journal resources from off-campus.

NetID and password are required to access library resources from off-campus. Activate and manage your NetID at [SelfServ](#). Single Sign On (SSO) and Multifactor Authentication (MFA) are also required.

Project Advance faculty may request instruction for their students. SU librarians can teach students how to locate and use library resources and to conduct research effectively.

[Click here to go to the Syracuse Library Homepage](#)

If some at your school needs to request access to the library, [please have them fill out this form.](#)

Library Staff

The SU library system has staff dedicated for Project Advance students, as well as subject-specific librarians.
