Turnitin Services

Turnitin—an Internet-based plagiarism prevention system—is now available for use by all Syracuse University instructors, including those offering SU courses through Project Advance.

Turnitin allows instructors to upload student work (submitted as electronic files, such as a MS Word document) into the system and receive a report that identifies "matched text." The instructor still must analyze the report for originality, but Turnitin does provide them with more information that can be used to make this determination.

- If you plan to use TurnItIn in your classroom, you must [submit a request for a TurnItIn account](#).
- Syracuse University requires that parents sign a [TurnItIn Parental Permission](#) form. Completed forms should be mailed to the Project Advance office.

For more information, [contact our SUPA team](#) for assistance.

Tutorials for TurnItIn

Project Advance Tutorials:

Below are some short tutorials specifically designed by the Project Advance Instructional Design Team. For additional tutorials, see those developed at the TurnItIn.com website.
