About Rebecca Pettit

Rebecca Pettit began her journey in higher education in 2018 as an Office Coordinator in the School of Education after over a decade in the human services/mental health field. She now works as the Communications Specialist, assisting SUPA with their digital media needs. Rebecca comes to SUPA with a Certificate of Advanced Study in Instructional Design Foundations, from Syracuse University's School of Education; and is currently pursuing a Master of Science in Instructional Design, Development & Evaluation.

When not at work, Rebecca enjoys camping and attending live music events with her husband, Chris, as well as snuggling with their two "cow cats" Daisy and Duke while bingeing the latest streaming series.
