

Students & Parents

Students who take a Syracuse University course through Project Advance earn more than just college credits.

Experiencing the rigor of a college course while still in high school can help prepare students for the jump to the next level by helping them understand the expectations and challenge of college academics.

With over 200 partner schools and more than 800 certified adjunct instructors, Project Advance is one of the oldest, largest and most respected concurrent enrollment programs in the country. Accredited by the National Alliance of Concurrent Enrollment Partnerships (NACEP), Project Advance offers over 50 courses to high school students in the US and abroad.

Students complete the online registration located at home or in school, choosing the class or classes they want to register for to receive Syracuse University credit.
